### 2. Nursing Science 92: "Compassion in Healthcare" - 1 Unit

Hey everyone! If you are someone who is interested in pursuing a career in health care or are interested in finding out if this is the field for you, I would like to invite you to take this one unit course next quarter in which you will have the opportunity to hear first-hand from the experiences of various health care professionals including MDs, DOs, NPs, etc. and learning about how they work to remain compassionate when in their careers. No midterms, no finals, just graded based on participation one session a week and it is pass/no pass. Because it is seminar based, it is an excellent opportunity to network with other students and with these professionals as you will be able to them questions about their healthcare journeys or about other topics so I highly recommend for all you pre-health/pre-med or related majors.

### 3. Latino Medical Student Association Presents: Medical School Application Series - Apply by March 30

A blue poster for the Latino Medical Student Association (LMSA) Medical Application Series. At the top, it says "LATINO MEDICAL STUDENT ASSOCIATION (LMSA)" in white. There are icons of a person with a stethoscope and a group of people. The LMSA logo is in the center. Below the logo, it says "MEDICAL APPLICATION SERIES". The schedule includes: "Discussion 1: AMCAS Application Overview &amp; Student/Mentor Introduction", "Discussion 2: MCAT Overview", "Discussion 3: Personal Statement", "Discussion 4: Experiences section", "Discussion 5: Interview preparation", "Workshop 1: Personal Statement", "Workshop 2: Experiences section", and "Workshop 3: Interview preparation". It then says "Receive Individual Support", "Expand Networking", and "Build Skills, Confidence, and MORE!!". The application deadline is "Applications due March 30, 2024" with the link "http://tinyurl.com/lmsamasapp". The program is "Mondays April 8- May 6, 2024" and mentorship is "April - September, 2024". Any question should be sent to "Thao Pham (thaoppl@hs.uci.edu)". At the bottom, there is a QR code.

The age of presidential candidates has become a salient concern, but age is not the only physical factor that should concern citizens. Presidents can also suffer various forms of illness, both physical and psychological. This talk highlights the nature of these concerns and how we might work to mitigate their impact on political outcomes.

#### Featured Speaker

Rose McDermott, PhD  
Professor of International Relations  
Brown University

Rose McDermott is the David and Mariana Fisher University Professor of International relations at Brown University and a Fellow in the American Academy of Arts and Sciences. She is author of five books and over two hundred academic articles encompassing topics such as American foreign and defense policy, experimentation, national security intelligence, gender, social identity, cybersecurity, emotion and decision-making, and the biological and genetic bases of political behavior.
