2. Nursing Science Courses to Enroll in for S'24

Hey everyone! If you are someone who is interested in pursuing a career in health care or are interested in finding out if this is the field for you, I would like to invite you to take this one unit course next quarter in which you will have the opportunity to hear first-hand from the experiences of various health care professionals including MDs, DOs, NPs, etc. and learning about how they work to remain compassionate when in their careers. No midterms, no finals, just graded based on participation one session a week and it is pass/no pass. Because it is seminar based, it is an excellent opportunity to network with other students and with these professionals as you will be able to them questions about their healthcare journeys or about other topics so I highly recommend for all you pre-health/pre-med or related majors.

4. St. George’s University in Los Angeles - March 10

St. George's University is holding a live event, to be held on Sunday, March 10, from 2 p.m. to 5 p.m. at the Sofitel Beverly Hills. We had our first SGULive: LA last March, and it was a big hit for students, their guests and even a few advisors. The afternoon is packed with great information about SGU, why SGU, financial aid/scholarships, the application process, and an opportunity for applicants to interview in person, but even more importantly, it is a great way to connect with SGU and our graduates.

More information about the event is available at: https://www.sgu.edu/sgulive/la/.
5. GMB Presents: MCAT Webinar - March 12

Studying for the MCAT this spring or summer? Join GMB (Global Medical Brigades) for a webinar on March 12 at 7 pm to learn about the specifics of the exam, as well as some tips to ace the exam. Register here: bit.ly/UCIGBMWebinar2

8. UCI Center for Neuropolitics - "Presidential Leadership and Disability" - March 15

The age of presidential candidates has become a salient concern, but age is not the only physical factor that should concern citizens. Presidential candidates also suffer various forms of illness, both physical and psychological. This talk highlights the nature of these concerns and how we might work to mitigate their impact on political outcomes.
